RUUKKI STEEL ROOFS

**RUUKKI**

**Quality that survives the test of time. Great looking, too.**

Your home is precious – and it is important that you have a roof that provides matching value. Ruukki’s steel roofs protect your home in all circumstances. They are also aesthetically pleasing and timelessly stylish. And what’s important, Ruukki’s roof makes your home even more valuable.

Ruukki’s roofs are Finnish quality. Whether you are about to renovate or build a new home, our comprehensive selection of roofs ensures that you will find a beautiful, durable and easy-care solution. And when you include our rainwater systems and roof safety products in your purchase, you will have a package that is stylish and functional down to the very last detail.

**Designed for demanding climates.**

Our roofs are designed for demanding climates and withstand years of fluctuating conditions, from summer heat and autumn rains to ice-cold winter. By choosing Ruukki, you will have a beautiful roof that lasts for decades.

Key advantages are our unique coatings Purex and Pural. They give the surface unparalleled durability, effectively protecting it from scratches and corrosion due to snow and ice, and also ensure that the colours will not fade due to the sun’s UV radiation.

Top standards defined by Ruukki Quality Classes are excellent complements to Ruukki’s know-how and heritage in steel roofs. They are available in state-of-the-art colour-coated grades.

**Designed for demanding climates.**

Ruukki quality classes are the symbol of a unique performance guarantee. Our product portfolio is extensive, so we trust that you will find the solution just right for your roofing needs. The Ruukki quality classes stand for maximized value and life time performance. We guarantee Ruukki quality throughout the design, manufacture and servicing of our solutions. Ruukki quality classes – the promise you can trust.

The highest durability and design on the market; extended 50 year Ruukki warranty. The best there is, and then some!

Excellent product value, Ruukki warranty for 40 years. A smart choice that fits any need and location.

An affordable and reliable choice for everyday needs. Ruukki warranty for 30 years.

**Roofs tested by Finnish nature.**

## Design with all parts fitting seamlessly together.

### A steel roof never goes out of style.

Steel is a timeless choice. Its use has long traditions, and its appearance and properties make it the most modern roofing material.

Ruukki's steel roofs are known for the marriage of form and function that is characteristic of Scandinavian design. This makes them practical and beautiful, and also carefree to maintain. The roofs are light, which makes them ideal also for renovation construction.

## Options for a rich variety of environments and architectural styles.

Ruukki's steel roofs are available in designs that suit a rich variety of environments, both modern and traditional. A Ruukki roof, together with our rainwater systems and roof safety products, ensures that you don't have to compromise.

### Express yourself.

Our standard colour selection is comprehensive and versatile. The colours have been designed for European landscapes and bring out the best in buildings. Which colour is best for you and your home?

## The fastest and easiest way to get a new roof.

The easiest way to install a new roof or renovate an existing one is to opt for a Ruukki roofing package.

### A roof package includes:

- roofing sheets
- frames and sealings
- ducts and lead-ins
- fastening equipment
- rainwater systems
- roof safety products

## Ruukki at your service.

Ruukki is a metal expert you can rely on all the way, whenever you need metal-based materials, components, systems and integrated systems. We are constantly developing our product range and operating models to match your needs.

For more info, contact your local distributor or visit: [www.ruukkiroofs.com](http://www.ruukkiroofs.com)

### This is how easy it is:

1. Get familiar with our selection and choose the package you like best at [www.ruukkihome.com](http://www.ruukkihome.com), and then submit an offer request.
2. A Ruukki expert will provide you with a cost estimate.
3. Agree on the delivery timetable with the expert.
4. It won't take long – an installation-ready package will soon be delivered to your doorstep.
5. Expert will take care of installation in no time.

## A choice easy to live with.

Ruukki's steel roofs are watertight, light and last for decades. Thanks to the design and the materials used, they are also hassle-free and easy to maintain.

**With Ruukki, you can focus on the important things in your life.**

# CLASSIC™

Tough but beautiful

Ruukki Classic is a high-class steel roof with unique look. Its profile resembles traditional seamed roofing but at the same time it's modern and stylish. It suits a variety of architectural styles and it's an excellent choice also for low-pitched roofs.

If you are looking for timeless and long-lasting beauty, choose Ruukki Classic. It's tough and easy-care. It also has a very fine finish. You don't need to fasten any screws on the eaves, for example. Enjoy also Classic Silence with additional anticondensation and noise insulation to make your home even more pleasant place for relax.

Ruukki Classic comes in four Quality Classes, which differ in long term performance.

Ruukki Classic 50+, Classic Silence 50+, Classic 40, Classic 30 available also with embossed surface.

Models

# CLASSIC™ EMBOSSED Models

Unique look, unique feel

This new version of Classic has been designed for those who demand only the very best of roofs. All the strengths of Classic, such as timeless elegant appearance as well as top quality and durability are present.

A new feature is an embossed surface, which gives this new Classic a fresh new stylistic feature. It increases stiffness which makes the profile straight and flat. Another new feature is effective sound isolation, which increases comfortness of living even more.

Embossed surface is available in Ruukki Classic Quality Classes Ruukki 50+ (Pural Matt coating), Ruukki 40 (Purex) and Ruukki 30 (Polyester Matt).

# FINNERA™

The most intelligent roof ever seen.

Finnera's new and innovative design makes your steel roof not only beautiful but also extremely durable and practical. The revolutionary front-edge folding within the product maximizes weather resilience and enables an admirable seamless roof finish, even with modular sheet format. This means you get top quality in a fully standardized stock-ready package, making your whole roofing project as easy and carefree as possible. You get a stunning end result with less worry, that is.

Models

Finnera has 40 years technical warranty.  
It is made with Purex coating.

# ADAMANTE™

Models

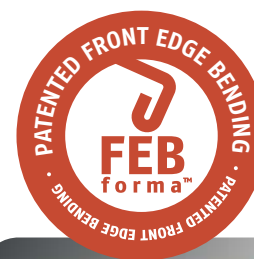

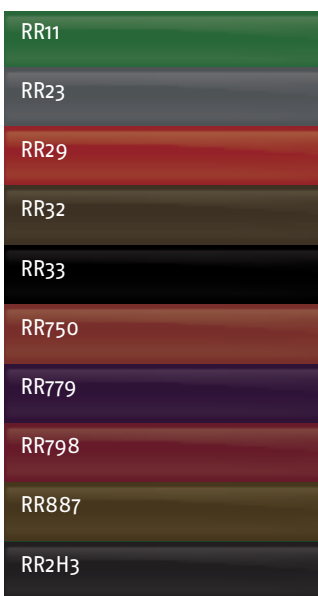

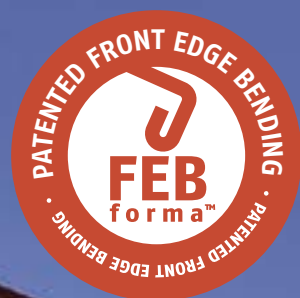

When style matters

It is the easy way to make an impression with Ruukki Adamante. It is a distinctive new roof profile for the style conscious homeowner. Two all new colours, Wine Red and Velvet Aubergine, perfectly compliment the bold, stylish design. If you want your house to have some more attitude let Ruukki Adamante do the talking.

Adamante is made with Pural Matt, Purex or Polyester/Polyester Matt coating.

## MONTERREY™

Models

The most popular for many reasons

Ruukki Monterrey is an excellent fit for a rich variety of landscapes and houses. Therefore it's our most popular model. And thanks to its lower profile, Monterrey gives your roof a tranquil appearance. Monterrey comes with three different coatings, Pural Matt, Purex and Polyester – which differ from each other by long term performance.

Also available with FEB™ technology.

The FEB™ (Front Edge Bending) shape is a unique Ruukki patented technology which gives the roof extremely impressive appearance. The back-bend dripp edge produces an excellent effect. The FEB™ design technology has attractive appearance and improved durability. Bending the edge under the profile improves the roof durability against rain and other weather effects.

Monterrey with FEB™ is available in Ruukki 40 (Purex coating) and Ruukki 30 (Polyester) quality classes.

Monterrey comes with three different options.

# PROFILE T20

Models

To all kind of construction

Profile T20 provides a straight lined solution for versatile roofing needs, ranging from modern private houses to refurbishment of rural buildings. Due to the linear and rigid form of the sheets, Profile T20 is aesthetically pleasing and easy to install, not only on new constructions, but also on existing rafters in renovation applications.

Profile T20 offers three quality classes: Ruukki 50+ in Pural Matt coating, Ruukki 40 in Purex and Ruukki 30 in Polyester or Polyester Matt. A typical application for Profile T20 Ruukki 50+ is a modern functional style building requiring a slick and streamlined exterior finish, whereas Profile T20 in Ruukki 40/30 is mostly applied in the agricultural segment for a variety of building types, such as, granaries, barns, silos as well as the main building of the complex.

## SMALL COILS FOR MACHINE SEAMED ROOFS

Models

The mark of craftsmanship

Ruukki's machine seamed roofs are suitable for more challenging reconstructions and environments, for example valuable city resorts. They can also be used for modern architectural constructions. An impressive outcome will be guaranteed with premium materials as well as with a completion of exceptionally high quality. For example, the capping of pipes and other completion parts will be made as sheetmetal work.

Machine seamed roofs are made in quality classes Ruukki 40/30 with 40/30 years of technical and 20 years of aesthetical warranty.
